

Getting Married

You may have organised your dress, venue, cars, flowers, caterer, stag and hen parties, honeymoon etc.

But what about your wedding rings?

Follow our simple guide below and enjoy the experience.

1. Your budget

- We can work with any budget, and we know how costly a wedding can be, so to help we can offer 0% finance, spreading the cost over 12 months. Remember, you are not just buying a piece of jewellery, but investing in a permanent reminder of your happy day which you will wear for evermore.

2. Ladies

- You have a fabulous engagement ring so you need an equally fabulous wedding ring. We pride ourselves on our ability to compliment your engagement ring with one of our wedding rings no matter how elaborate, even if shaped or multi diamond set.

3. Gentlemen

- You may not be used to wearing jewellery, let alone a wedding ring. Fear not, we have an extensive choice of plain bands to suit. For the more adventurous we have engraved rings with a modern twist or consider having a diamond set, diamonds aren't just for the ladies.

4. Start browsing

- Don't leave it to the last minute because it is not every day you get married. Start a few months before, which will give you plenty of time to choose the rings you like, order them and allow time to check they fit just right.

5. Just that bit extra

- Have you thought of personalising the inside of the rings with your names or nicknames? Or maybe your wedding date or a secret message. We can engrave whatever you wish all free of charge.

6. Aftercare

- We offer a free for life cleaning service which means you can pop your rings in any time and have them professionally cleaned and checked.

GOOD LUCK
